

FACULTY OF ARTS & SCIENCE
Teaching Assistant – CUPE 3902, Unit 1
January 1, 2022 - April 30, 2022

STA130H1S L9901 – An Introduction to Statistical Reasoning and Data Science
Qualifications & Description

Graduate student with strong background in statistics, as well as excellent communication and writing skills, and the ability to interact well with undergraduate students. Senior undergraduate students (third and fourth year) with strong background in statistics and exemplary communication skills may also be considered. Preference for candidates that have proficiency/proficient in R (broadly) and prior experiences in ELL, either as a learner or having worked with one. Proficiency/knowledge in most, if not all, of the course topics indicated below is preferred: This course, intended for students considering a program in Statistical Sciences, discusses the crucial role played by statistical reasoning in solving challenging problems from natural science, social science, technology, health care, and public policy, using a combination of logical thinking, mathematics, computer simulation, and oral and written discussion and analysis.

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

All duties will take place online. Duties will include any or all of the following: attending lectures (most likely Mondays 10-12 and 2-4 - to be confirmed in July), running tutorial sessions, facilitating and evaluating student engagement on online discussion boards, participating in training sessions, meeting with the instructors, holding office hours, grading student homework including written reports, and assisting with grading of tests and exams.
