

ACT 349H1F (FALL 2023) CORPORATE FINANCE FOR ACTUARIAL SCIENCE

1. Course Information:

Instructor: Jason Tome (jason.tome@utoronto.ca)

Office hours: TBD (By Appointment)

Lecture: Wednesdays from 2:00 to 5:00 p.m.

Delivery Method: In-person lectures in SU B120

Teaching Assistant: Ian Weng (Sophia) (ianweng.chan@mail.utoronto.ca)

Office hours: TBD (By Appointment)

2. Course Description

This course introduces students to analysis of financial planning and management with emphasis on capital structure, dividend payout policies, cost of capital, capital budgeting, risk and other special topics. The course serves as a framework for understanding a broad range of corporate financial decisions.

This course is one of the mandatory courses under Canadian Institute of Actuaries (CIA)'s University Accreditation Program (UAP). UAP has moved away from the course-by-course accreditation method and is now based on a program accreditation method. Under the new credentialing pathway, to obtain ACIA (Associate of CIA) professional credential, students need to:

1. Complete a degree from an actuarial program (ACT Specialist or Major) at University of Toronto and pass a list of mandatory courses. No minimum course grade or GPA is required as long as students pass all the mandatory courses. The full list of UofT's 16 mandatory courses are: ACT240, ACT245, ACT247, ACT348, ACT349, ACT370, ACT451, ACT452, ACT466, STA257, STA261, STA302, STA314, ECO101, ECO102, MGT201/RSM219.
2. Complete the ACIA Modules available from Fall 2023.
3. Complete an open-book ACIA Capstone Exam available from January 2024.

For more information on the UAP program, please visit [here](#).

3. Course Objectives

Upon successful completion of this course, students will be able to:

- Explain financial markets and functions of corporate finance.
- Calculate and Interpret time value of money.
- Estimate bond prices and identify factors that affect bond prices.
- Estimate the value of a common stock and determine if it is under or overpriced.
- Calculate different components of cost of capital.
- Understand and evaluate capital budgeting decision rules and explain how real options affect these decisions.
- Classify and distinguish various types of risk and their relation to portfolio choice
- Describe and calculate a firm's capital structure.
- Interpret how leverage and firm value are related.
- Explain how a firm's dividend policy is set and how it affects firm value.

4. Course Textbook & Calculator

Title: Corporate Finance (2022)

Edition: 9th Canadian Edition

Authors: Stephen A. Ross, Randolph W. Westerfield, Jeffrey Jaffe, Bradford D. Jordan, Hamdi Driss

Calculator: The use of a hand-held financial calculator that has Time Value of Money functions is **strongly recommended** for this course. I recommend the Texas Instruments BAII Plus, as this is used in the textbook and lectures to demonstrate examples. The use of any other non-programmable calculator will also be permitted for quizzes and exams.

5. Evaluation

a) Term Test #1 and Term Test #2 (25% each, for a combined total of 50%)

- a. **Questions:** Short Answer Questions
- b. **Duration:** 2 hours will be allotted.
- c. **Date / Time / Location:** See "Course Schedule" section below.
- d. **Important:** See "Exam Rules & Academic Integrity" section below.

a) Final Exam (50%)

- a. **Questions:** Short Answer Questions
- b. **Duration:** 2 hours will be allotted.
- c. **Date / Time / Location:** Will be announced once they are available.
- d. **Important:** See "Exam Rules & Academic Integrity" section below.

6. Exam Rules & Academic Integrity

- All exams (i.e. Test 1, Test 2, and Final Exam) are **closed book** examinations.
- Dictionaries are **not** allowed into the examinations.
- Formula sheets will be provided for each exam.
- Only **non-programmable calculators** will be allowed into the exams. If you are unsure, please ask the Instructor to check your calculator.
- Bring student identification (i.e. ID cards) to exams.
- Nothing is to be on/at one's desk during an exam except pencil, eraser, non-programmable calculator and the individual's student card.
- Do not wear caps / hats to the exams.
- Do not bring electronic devices to the exams.
- Students are required to complete **all components** of this course. There are no exceptions to this. Extra assignments to improve grades *will not* be allowed.
- Exams may be scored using a special program which examines the answer sheets for unusual coincidences in the pattern of answers given which may be indicative and used as supporting evidence of cheating.
- Grades will **not** be adjusted on the basis of need. It is important to monitor your performance in the course. Remember: **You** are responsible for **your** grades in this course.
- There are **no make-up term tests**. However, if you miss a term test, and you can provide me with one of the following: a U of T Verification of Illness or injury form (www.illnessverification.utoronto.ca), or an Accessibility Services letter, or a letter from your college registrar about personal matters interfering with your studies, **by the day after the term test at the latest**, your missed term test weight will be shifted to the final exam (i.e. if you missed a 20% term test, your final exam will be worth 60%). This "shifting" may be done after comparing and adjusting the class average of the missed test and final exam to ensure fairness to all students. You will be informed of that adjustment should it happen.
- There will be **ONE** make-up final exam arranged by Faculty of Arts and Science directly.
- In addition to the specific university's internal policies on conduct, including academic misconduct, candidates pursuing credits for writing professional examinations shall also be subject to the Code of Conduct and Ethics for Candidates in the CIA Education System and the associated Policy on Conduct and Ethics for Candidates in the CIA Education System. For more information, please visit information for candidates on [obtaining UAP credits](#).
