

ASSISTANT PROFESSOR, PSYCHOLOGY AND STATISTICAL SCIENCES

The Department of Psychology and the Department of Statistical Sciences in the Faculty of Arts and Science at the University of Toronto invites applications for a joint (67% Statistical Sciences, 33% Psychology) full-time tenure-stream appointment. The appointment will be at the rank of Assistant Professor and will begin on July 1, 2020, or shortly thereafter.

We are interested in candidates from psychology and statistical science who demonstrate excellence in teaching and research whose research program advances both disciplines and complements our existing strengths in both [Psychology](#) and [Statistical Sciences](#). We are particularly interested in scholars who transcend traditional statistical and psychology research topics, and who are working on non-traditional areas at the cutting edge of both disciplines.

Applicants must have a Ph.D. in Psychology, Neuroscience, Biostatistics, Statistics, or a closely related field by the time of appointment or shortly thereafter. Excellence in research is evidenced primarily by the quality of published or forthcoming papers in top ranked and field-relevant academic journals, the submitted research statement, presentations at conferences, research awards and accolades, and strong endorsements by referees of top international stature. Evidence for excellence in teaching is based on strong letters of reference, teaching accomplishments and a teaching dossier containing a strong statement of teaching philosophy, teaching evaluations and sample syllabi.

The University of Toronto is an international leader in psychology and statistical science research and education. The successful candidate will be expected to conduct outstanding independent, innovative research at the highest international level; to establish a strong competitive externally funded independent research program; to demonstrate a strong commitment to undergraduate and graduate teaching, and to contribute to the enrichment of both Departments by leveraging the ample opportunities for collaboration. The successful candidate will join a vibrant intellectual community of world-class scholars at Canada's leading university. The Greater Toronto Area offers amazing cultural and demographic diversity and one of the highest standards of living in the world.

Salary to be commensurate with qualifications and experience.

Applicants must apply online via AcademicJobsOnline, <https://academicjobsonline.org/ajo/jobs/14701> and include a curriculum vitae, a cover letter, a list of publications, a research statement outlining their programmatic research approach, one sample article-length publication, and a teaching dossier containing a strong statement of teaching philosophy, teaching evaluations and sample syllabi.

Applicants must also arrange to have at least three strong letters of reference (on letterhead and signed) uploaded through AcademicJobsOnline directly by the writers.

All application materials, including signed reference letters, must be received by November 18, 2019.

For more information about the Departments of Statistical Sciences and Psychology, please visit our websites at <http://statistics.utoronto.ca/> and <http://psych.utoronto.ca>. If you have questions about the position, please contact Katrina Mintis at katrina.mintis@utoronto.ca.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
