

2020-21 Economical Insurance Scholarship in Actuarial Science

Department of Statistical Sciences University of Toronto

Award Value: \$4,000 Annually

The Economic Insurance Scholarship in Actuarial Science recognizes academic merit and leadership participation within the university and/or the community.

Students who have a strong passion for the Actuarial Science industry are encouraged to apply.

The scholarship will be awarded to an undergraduate Actuarial Science student in the Department of Statistical Sciences that is currently in their third-year. This will be awarded on the basis of academic merit and community involvement. Preference will be given to students who have successfully completed professional examinations related to actuarial science. This award is open to all Canadian citizens, Permanent Residents and International Students (must be able to provide Canadian payroll documentation).

The deadline to submit your application is **February 28, 2021, 11:59 PM**

Please submit the completed application form with supporting materials to:
