

2018-19 Laurence E. Coward Scholarship in Actuarial Science

**Department of Statistical Sciences
University of Toronto**

Award Value: \$1,000.00 annually

The Laurence E. Coward Scholarship in Actuarial Science is a Scholarship established by **Mercer (Canada) Limited** in the Department of Statistical Sciences, Faculty of Arts & Science, University of Toronto

Students who have a strong passion for the Actuarial Science industry are encouraged to apply.

The scholarship will be awarded to an undergraduate Actuarial Science student in the Department of Statistical Sciences that is currently in their third-year. This will be awarded on the basis of academic merit and community involvement, preferably in a leadership role, as well as financial need. This award may be renewed for a second year provided a G.P.A. of 3.25 is maintained during the first year the award is granted.

Applicants must be Canadian Citizen or Permanent Resident of Canada.

Deadline to submit your application is **January 31, 2019**

Please submit the completed application form with supporting materials to:
