

Morneau Shepell Scholarship in Actuarial Science

**Department of Statistical Sciences
University of Toronto**

Award Value: \$2,500 annually

The Morneau Shepell Scholarship in Actuarial Science was established by Morneau Shepell to recognize academic merit and leadership participation within the university and/or the community, and to provide an internship opportunity to the chosen recipient.

Students who have a strong passion for the Actuarial Science industry are encouraged to apply.

The scholarship will be awarded to a second year undergraduate student majoring or specializing in actuarial science in the Department of Statistical Sciences on the basis of academic merit and demonstrated leadership through participation in activities within the university or the community. The award, may be renewed for a second year provided a GPA of 3.25 is maintained during the first year the award is granted.

The deadline to submit your application is **April 8, 2016**

Please submit the completed application form with supporting materials to:
